

## Forests Worth Knowing Atlantic Teachers' Tour

### Connecting Educators and Forests!

The Forests Worth Knowing, Atlantic Teachers Tour, is a unique Professional Development opportunity for Teachers and Guidance/Career Counselors to learn about forests and the people who work in the forestry sector everyday. Organized by forest professionals from across the region, the tour offers broad perspectives on everything from ecosystems, forest products, career options, forest sciences, economics and much more in an open, friendly and interactive manner.

We offer resources you can take back to the classroom and one-of-a-kind experiences you can share with students, coworkers, friends and family members.

Tours costs are covered by our sponsors. We only ask for your time and input.
